

January 26, 2021

Dear Families, Loved Ones and Team Members of Regency at Augusta,

Regency at Augusta has completed our last round of COVID-19 Antigen testing today on all residents and team members. While all residents and staff have tested negative, we will continue to be diligent in our efforts to maintain the safety and wellbeing of the community.

With this round of testing, we have now gone 14 consecutive days without a positive Covid-19 result in our community.

Here is what we will continue to do to keep our team and residents safe and healthy:

- Social distancing is being practiced
- Multiple daily temperature and pulse oximetry checks for all residents
- Only essential individuals will be allowed to enter our community to provide essential and compassionate care to our residents
- Frequent disinfecting of our community
- Staff are completing a screening questionnaire and having temperatures checked daily upon entering the community
- Strict adherence to CDC hand washing and hand sanitizer guidelines
- All team members will wear proper PPE while offering care to our residents
- Masks will be provided for residents to wear during care provided by staff

Communal dining will begin to reopen slowly along with small group activities of less than 10 residents.

The current visitation restrictions will remain in place in our community at this time, and until the VDH and the local health department lift restrictions. We are continually adjusting policies and practices as set by state and federal officials.

Please reach out to me if you have any questions. On behalf of the team here at Regency, we appreciate all your support during this time.

Best regards,

Vickie Conner  
Executive Director
