

February 27, 2021

Dear Families, Loved Ones and Team Members of Regency at Augusta,

Regency at Augusta completed our second COVID-19 Antigen Vaccine Clinic with our pharmacy partner CVS on February 22. Currently, our community remains free of COVID-19 and we will continue to follow the recommendations and guidelines of the CDC and our local Health Department.

We will continue to do the following to keep our staff and residents safe and healthy:

- Social distancing is being practiced
- Multiple daily temperature and pulse oximetry checks for all residents
- Frequent disinfecting of our community
- Staff are completing a screening questionnaire and having temperatures checked daily upon entering the community
- Strict adherence to CDC hand washing and hand sanitizer guidelines
- All team members will wear proper PPE while offering care to our residents
- Masks will be provided for residents to wear during care provided by staff
- Activities in groups of 10 or less
- Communal dining for all meals

The current visitation restrictions will remain in place in our community at this time, and until the VDH and the local health department lift restrictions. We are continually adjusting policies and practices as set by state and federal officials.

Please reach out to me if you have any questions. On behalf of the team here at Regency, we appreciate all your support during this time.

Best regards,

Vickie Conner
Executive Director
