

REGENCY
SENIOR LIVING

December 21, 2021

Dear Families, Loved Ones and Team Members of Regency at Augusta,

We have not identified any new positive cases of COVID-19 since December 16, 2021. Our residents are doing well and are symptom free. We will be continuing to watch for signs and symptoms and will continue to follow all CDC guidelines and VDH protocols.

Here are a few things we will continue to do to keep our team and residents safe and healthy:

- Social distancing is being practiced
- Multiple daily temperature and pulse oximetry checks for all residents
- Frequent disinfecting of our community
- Team members are completing a screening questionnaire and having temperatures checked daily upon entering the community
- Strict adherence to CDC hand washing and sanitizer guidelines
- All team members will wear proper PPE while offering care to our residents
- Masks will be provided for residents to wear during care provided by team members

Unfortunately, we do have sad news today. Two of our residents who previously tested positive, and who were both already under the care of hospice, have passed away. Due to other active medical conditions at the time, the cause is undetermined.

While we are not restricting visiting, it will be at the visitor's discretion. We ask all visitors to please adhere to all CDC guidelines. Please reach out to us if you have any questions or concerns. On behalf of Regency at Augusta, we appreciate your support during this time.

Best Regards,

Kelly Rose, LPN

Executive Director
