

REGENCY
SENIOR LIVING

August 2, 2022

Dear Families, Loved Ones and Team Members of Regency at Augusta,

We identified 17 resident positive cases and 7 staff positive cases of COVID-19 since July 12, 2022. All positive residents and their families were notified. Two of those residents who tested positive are still currently testing positive for COVID-19 and are under quarantine in their rooms until we obtain a negative test. All our other residents are doing well and have recovered quickly. We will continue to monitor all residents and staff for signs and symptoms and will follow all CDC guidelines and VDH protocols. I am happy to announce that communal dining and group activities have been resumed.

This is what we will continue to do within our community to keep our team and residents safe and healthy:

- Multiple daily temperature and pulse oximetry checks for all residents
- Frequent disinfecting of our community
- Team members are completing a screening questionnaire and having temperatures checked daily upon entering the community
- Strict adherence to CDC hand washing and sanitizer guidelines
- All team members will wear proper PPE while offering care to our residents
- Masks will be provided for residents to wear during care provided by team members

We ask all visitors to please adhere to all CDC guidelines (wash hands frequently). Please reach out to us if you have any questions or concerns. On behalf of Regency at Augusta, we appreciate your support during this time.

Best Regards,

Stephen Davies
Executive Director
